Declaration of Compliance, General Food Contact Regulations

EU Directive 1935/2004/EC.
FDA 21 CFR 177.2600
Commission Regulation (EU) 10/2011
Good Manufacturing Practice 2023/2006/EC

Declaration of compliance (DoC) covering Product Contact Parts (PCP) intended to come into contact with food.

S.K.S. BV confirms that all sealing parts of rubber, type NBR, HNBR, EPDM, SIL (VMQ), VITON (FKM) as well as parts in PTFE, delivered from SKS are in accordance to the following regulations/guidelines/standards:

1935/2004/EC as replaced for Directives 80/590/EEC and 89/109/EEC and also in accordance tot the regulations as set out in section 21 CFR 177.2600 FDA (Food and Drug Administration).

We guarantee that all products are produced according the directive for GMP (Good Manufacturing Practice) 2023/2006/EC, which is part of the guideline EC1935/2004.

PCP's of plastic material comply with the Commission Regulation (EU) 10/2011.

The principle underlying this Regulation is that any material or article intended to come into contact directly or indirectly with food must be sufficiently inert to preclude substances from being transferred to food in quantities large enough to endanger human health or to bring about an unacceptable change in the composition of the food or a deterioration in its organoleptic properties.
