

## Alfa Laval LKGG-1 and LKGL-1 In-Line Sight Glass

In-line sight glass for visual inspection of product flow in hygienic applications

### Introduction

The Alfa Laval LKGG-1 and LKGL-1 In-Line Sight Glass permits direct, distortion-free visual inspection of process conditions, product flow, liquid levels and cleaning status inside pipelines.

Affordable and easy-to-operate, the leakproof in-line sight glass makes it possible for operators to view the color, clarity, turbidity, or other critical characteristics of the product or cleaning status of the pipelines.

Inspection enables early detection of potential issues and quick response. This helps prevent costly downtime, protect plant equipment and improve operational efficiency.

### Application

The LKGG-1 and LKGL-1 In-Line Sight Glass is used in pipelines to facilitate clear, continuous and unobstructed inspection of various process conditions in hygienic applications across the dairy, food, beverage, personal care, biotechnology and pharmaceutical industries.

### Benefits

- Improved operational efficiency
- Enables early detection and quick response to potential issues
- Reliable operation and more uptime
- Quick and easy to install
- Low maintenance requirements

### Standard design

The Alfa Laval In-Line Sight Glass range is available in two types: Alfa Laval LKGG-1 and LKGL-1. The Alfa Laval LKGG-1 In-Line Sight Glass has a perforated stainless steel shield tube fitted with a welding union at each end. A special glass tube is fixed in the shield tube to assure it is unaffected by potential stresses in the pipelines. The LKGL-1 is similar to LKGG-1 but has a stainless steel light fitting welded onto the shield tube to permit illumination of the product.

## TECHNICAL DATA

Temperature	
Recommended max. working temperature:	110°C
Max. thermal shock:	100°C
Bulb:	24 V / 24 W
Bulb socket:	B 15

Pressure	
Max. test pressure (20°C)	500 kPa (5 bar)

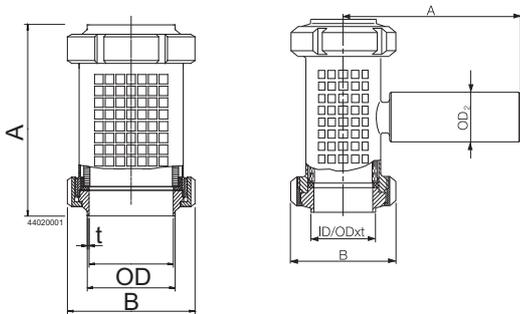

### Sizes

25 mm (1"), 38 mm (1½"), 51 mm (2"), 63.5 mm (2 ½") and 76 mm (3").

## PHYSICAL DATA

Materials
